

In order to speed up and facilitate the introduction of EPDs according to EN 15804+A2, IBU has approved this supplement to its Membership Dues and Fee Regulation. It allows members to have verified and published two EPDs for the same product, but using different versions of the standard, at reduced cost.

Declaration fees for EPDs following EN 15804+A2, if there is already an EPD following EN 15804+A1 ¹⁾

The declaration fees in this supplement to the Membership Dues and Fee Regulation reflects the reduced cost of verifying and publishing EPDs following EN 15804+A2. They are applicable for EPDs following EN 15804+A2, if the declaration bearer at the same time applies for the verification and publication of an EPD for the same product following EN 15804+A1. The life-cycle inventory and the validity period of both EPDs have to coincide. For EPDs generated with IT-based software tools the reduced fees only apply if both EPDs use the corresponding versions of the same tool.

For software tools the reduced fees only apply, if the verification of both versions (following EN 15804+A1 and +A2) is solicited at the same time.

- (1) The one-time fee for verification and handling per declaration are the following:

Verification and handling, first issuance	EUR 300,00
Verification and handling, EPD revision or update	EUR 300,00

When creating Individualized Model/Template EPDs or Tool-based EPDs (Type 1 ²⁾) a reduced fee of 150,00 EUR will be applied for both first issuance and EPD revision or update.

- (2) The trade mark fee for EPDs following EN 15804+A2 is EUR 0 as long as the declaration bearer pays the regular trade mark fee for an EPD following EN 15804+A1 that refers to the same product and has the same validity date.
- (3) When a declaration is issued on the basis of software EPD tools following EN 15804+A2, a one-time fee of EUR 750,00 (Type 1 and Type 2) is charged. ²⁾ The validity of this verification is equal to the validity of the verification following EN 15804+A1. When a tool owner wants the tool to be revised or extended, a reduced amount of EUR 500,00 (Type 1 und Type 2) is charged. The appropriate use of all Type-2 tools has to be checked annually. The corresponding fees for verification following EN 15804+A2 and handling amount to EUR 400,00 p.a.
- (4) All other provisions in the Membership Fee and Dues Regulation of IBU apply correspondingly.
- (5) This Supplement to the Membership Fee and Dues Regulation of IBU will become void at the latest at the end of the transition period from EN 15804+A1 to EN 15804+A2.

¹⁾ Net amounts plus VAT
